

# Yearly planning

## 03 NEW SEASON

### PLANTING

- 04  Clean planter / drill
- Store seed in a safe area
- Call your agronomic advisor before you start planting
- Go over your fields' preventive measures with your agronomic advisor

05

### GROWING

- Call your agronomic advisor for a visit of your Ceresco's fields
- 06  Call your agronomic advisor if you notice anything in the field you need help with. They will help you scout your fields.
- Spray as required

- 07  Fields monitoring

- 08  Fields monitoring

V

09

### HARVESTING

- Talk with your agronomic advisor if you think a "burndown" is needed
- Clean combine and harvesting equipment
- Assure that volunteer corn has been removed from field
- Call / talk with your agronomic advisor when you start combining
- Check moisture in field
- Beware of staining

10

### PLANNING

11

- Call your agronomic advisor
- Select the variety that works for you
- Order and sign contract<sup>t</sup>

### STORAGE

12

- Ensure bin is clean
- Take samples from each load
- Talk to your agronomic advisor about seed quality
- Confirm delivery date with office
- Run fans to keep moisture down if available
- Verify your silos regularly

01

### OFF SEASON

02

- Take a well deserved vacation!
